Author Index Volume 159

Baer, T., Moore, B.C.J. and Marriage, J.
Detection and intensity discrimination of brief tones as a function of duration by hearing-impaired listeners (159) 74
Burkitt, A.N., see FitzGerald, J.V. (159) 85
Burkitt, A.N., see Paolini, A.G. (159) 101

Clark, G.M., see FitzGerald, J.V. (159) 85
Clark, G.M., see Paolini, A.G. (159) 101
Cowan, R.S., see Tykocinski, M. (159) 53

Dau, T., see Derleth, R.P. (159) 132
Derleth, R.P., Dau, T. and Kollmeier, B.
Modeling temporal and compressive properties of the normal and impaired auditory system (159) 132
Duan, Y., see Tykocinski, M. (159) 53

FitzGerald, J.V., see Paolini, A.G. (159) 101
FitzGerald, J.V., Burkitt, A.N., Clark, G.M. and Paolini, A.G.
Delay analysis in the auditory brainstem of the rat: comparison with click latency (159) 85

Henley, C., see Zajic, G. (159) 125
Husain, K., Whitworth, C., Somani, S.M. and Rybak, L.P.
Carboplatin-induced oxidative stress in rat cochlea (159) 14

Jen, P.H.-S., see Xu, L. (159) 1

Kaga, K., see Sheykholeslami, K. (159) 117
Kakehata, S., see Santos-Sacchi, J. (159) 69
Keefe, D.H.
Inter-ear variations in the eardrum impedance and stapes velocity in the human middle ear (159) 150
Kollmeier, B., see Derleth, R.P. (159) 132

Leake, P.A., see Osofsky, M.R. (159) 23
Louis, J.-C., see Zajic, G. (159) 125

Magal, E., see Zajic, G. (159) 125
Marriage, J., see Baer, T. (159) 74
Merchant, S.N., see Voss, S.E. (159) 153
Mizutani, M., see Sheykholeslami, K. (159) 117
Moore, B.C.J., see Baer, T. (159) 74
Moore, C.M., see Osofsky, M.R. (159) 23

Neuert, V., Pressnitzer, D., Patterson, R.D. and Winter, I.M.
The responses of single units in the inferior colliculus of the guinea pig to damped and ramped sinusoids (159) 36
Nicolson, M., see Zajic, G. (159) 125

Osofsky, M.R., Moore, C.M. and Leake, P.A.
Does exogenous GM1 ganglioside enhance the effects of electrical stimulation in ameliorating degeneration after neonatal deafness? (159) 23

Paolini, A.G., see FitzGerald, J.V. (159) 85
Paolini, A.G., FitzGerald, J.V., Burkitt, A.N. and Clark, G.M.
Temporal processing from the auditory nerve to the medial nucleus of the trapezoid body in the rat (159) 101
Patterson, R.D., see Neuert, V. (159) 36
Peake, W.T., see Voss, S.E. (159) 153
Pressnitzer, D., see Neuert, V. (159) 36

Rosowski, J.J., see Voss, S.E. (159) 153
Rybak, L.P., see Husain, K. (159) 14

Santos-Sacchi, J., Wu, M. and Kakehata, S.
Furosemide alters nonlinear capacitance in isolated outer hair cells (159) 69
Sheykholeslami, K., Kaga, K. and Mizutani, M.
Auditory nerve fiber differences in the normal and neurofilament deficient Japanese quail (159) 117
Somani, S.M., see Husain, K. (159) 14

Tabor, B., see Tykocinski, M. (159) 53
Tykocinski, M., Duan, Y., Tabor, B. and Cowan, R.S.
Chronic electrical stimulation of the auditory nerve using high surface area (HiQ) platinum electrodes (159) 53

Voss, S.E., Rosowski, J.J., Merchant, S.N. and Peake, W.T.
Correlation of impedance at the TM with stapes velocity? Reply to the letter of D.H. Keefe (159) 153

Whitworth, C., see Husain, K. (159) 14
Winter, I.M., see Neuert, V. (159) 36
Wu, M., see Santos-Sacchi, J. (159) 69

Xu, L. and Jen, P.H.-S.
The effect of monaural middle ear destruction on postnatal development of auditory response properties of mouse inferior collicular neurons (159) 1

Zajic, G., Henley, C., Louis, J.-C., Nicolson, M. and Magal, E.
Distribution of immunophilin FKBP-12 protein and mRNA within the mammalian cochlea and cochlear nucleus (159) 125

PII: S0378-5955(01)00348-3

Subject Index Volume 159

Amplitude modulation
Temporal asymmetry; Brainstem; Onset unit (Neuert, V. (159) 36)

Auditory brainstem
Click latency; Delay analysis; Temporal processing (FitzGerald, J.V. (159) 85)

Auditory brainstem response
Cochlear implant; High surface area electrode; Electrical stimulation; Electrode impedance; Cochlear histopathology; Electrically evoked auditory brainstem response (Tykocinski, M. (159) 53)

Auditory nerve
Cochlear nucleus; Medial nucleus of the trapezoid body; Temporal processing (Paolini, A.G. (159) 101)

Auditory system development
Cochlear implant; Cochlear nucleus; Electrical stimulation; GM1 ganglioside; Neonatal deafness; Neurotrophins (Osofsky, M.R. (159) 23)

Axonal hypotrophy
Neurofilament deficiency; Conduction velocity; Morphology (Sheykholeslami, K. (159) 117)

Basilar membrane compression
Intensity discrimination; Hearing impairment (Baer, T. (159) 74)

Basilar membrane tuning
Outer hair cell; Motility; Nonlinear capacitance (Santos-Sacchi, J. (159) 69)

Brainstem
Temporal asymmetry; Onset unit; Amplitude modulation (Neuert, V. (159) 36)

Calcium
FK binding protein-12; Cochlea; Dorsal cochlear nucleus; Immunophilin; Ryanodine; Inositol 1,4,5-trisphosphate (Zajic, G. (159) 125)

Carboplatin
Oxidative stress; Cochlear antioxidant; Lipid peroxidation; Nitric oxide (Husain, K. (159) 14)

Click latency
Auditory brainstem; Delay analysis; Temporal processing (FitzGerald, J.V. (159) 85)

Cochlea
FK binding protein-12; Calcium; Dorsal cochlear nucleus; Immunophilin; Ryanodine; Inositol 1,4,5-trisphosphate (Zajic, G. (159) 125)

Cochlear antioxidant
Carboplatin; Oxidative stress; Lipid peroxidation; Nitric oxide (Husain, K. (159) 14)

Cochlear histopathology
Cochlear implant; High surface area electrode; Electrical stimulation; Electrode impedance; Auditory brainstem response; Electrically evoked auditory brainstem response (Tykocinski, M. (159) 53)

Cochlear implant
Auditory system development; Cochlear nucleus; Electrical stimulation; GM1 ganglioside; Neonatal deafness; Neurotrophins (Osofsky, M.R. (159) 23)

High surface area electrode; Electrical stimulation; Electrode impedance; Cochlear histopathology; Auditory brainstem response; Electrically evoked auditory brainstem response (Tykocinski, M. (159) 53)

Cochlear nonlinearity
Recruitment; Forward masking; Modulation processing (Derleth, R.P. (159) 132)

Cochlear nucleus
Auditory system development; Cochlear implant; Electrical stimulation; GM1 ganglioside; Neonatal deafness; Neurotrophins (Osofsky, M.R. (159) 23)

Auditory nerve; Medial nucleus of the trapezoid body; Temporal processing (Paolini, A.G. (159) 101)

Conduction velocity
Neurofilament deficiency; Axonal hypotrophy; Morphology (Sheykholeslami, K. (159) 117)

Delay analysis
Auditory brainstem; Click latency; Temporal processing (FitzGerald, J.V. (159) 85)

Dorsal cochlear nucleus
FK binding protein-12; Calcium; Cochlea; Immunophilin; Ryanodine; Inositol 1,4,5-trisphosphate (Zajic, G. (159) 125)

PII: S0378-5955(01)00350-1

Electrical stimulation
Auditory system development; Cochlear implant; Cochlear nucleus; GM1 ganglioside; Neonatal deafness; Neurotrophins (Osofsky, M.R. (159) 23)

Cochlear implant; High surface area electrode; Electrode impedance; Cochlear histopathology; Auditory brainstem response; Electrically evoked auditory brainstem response (Tykocinski, M. (159) 53)

Electrically evoked auditory brainstem response
Cochlear implant; High surface area electrode; Electrical stimulation; Electrode impedance; Cochlear histopathology; Auditory brainstem response (Tykocinski, M. (159) 53)

Electrode impedance
Cochlear implant; High surface area electrode; Electrical stimulation; Cochlear histopathology; Auditory brainstem response; Electrically evoked auditory brainstem response (Tykocinski, M. (159) 53)

FK binding protein-12
Calcium; Cochlea; Dorsal cochlear nucleus; Immunophilin; Ryanodine; Inositol 1,4,5-trisphosphate (Zajic, G. (159) 125)

Forward masking
Cochlear nonlinearity; Recruitment; Modulation processing (Derleth, R.P. (159) 132)

Frequency tuning curve
Inferior colliculus; Middle ear destruction; Ossicular chain; Tonotopic organization (Xu, L. (159) 1)

GM1 ganglioside
Auditory system development; Cochlear implant; Cochlear nucleus; Electrical stimulation; Neonatal deafness; Neurotrophins (Osofsky, M.R. (159) 23)

Hearing impairment
Intensity discrimination; Basilar membrane compression (Baer, T. (159) 74)

High surface area electrode
Cochlear implant; Electrical stimulation; Electrode impedance; Cochlear histopathology; Auditory brainstem response; Electrically evoked auditory brainstem response (Tykocinski, M. (159) 53)

Immunophilin
FK binding protein-12; Calcium; Cochlea; Dorsal cochlear nucleus; Ryanodine; Inositol 1,4,5-trisphosphate (Zajic, G. (159) 125)

Inferior colliculus
Frequency tuning curve; Middle ear destruction; Ossicular chain; Tonotopic organization (Xu, L. (159) 1)

Inositol 1,4,5-trisphosphate
FK binding protein-12; Calcium; Cochlea; Dorsal cochlear nucleus; Immunophilin; Ryanodine (Zajic, G. (159) 125)

Intensity discrimination
Hearing impairment; Basilar membrane compression (Baer, T. (159) 74)

Lipid peroxidation
Carboplatin; Oxidative stress; Cochlear antioxidant; Nitric oxide (Husain, K. (159) 14)

Medial nucleus of the trapezoid body
Auditory nerve; Cochlear nucleus; Temporal processing (Paolini, A.G. (159) 101)

Middle ear destruction
Frequency tuning curve; Inferior colliculus; Ossicular chain; Tonotopic organization (Xu, L. (159) 1)

Modulation processing
Cochlear nonlinearity; Recruitment; Forward masking (Derleth, R.P. (159) 132)

Morphology
Neurofilament deficiency; Axonal hypotrophy; Conduction velocity (Sheykholeslami, K. (159) 117)

Motility
Outer hair cell; Nonlinear capacitance; Basilar membrane tuning (Santos-Sacchi, J. (159) 69)

Neonatal deafness
Auditory system development; Cochlear implant; Cochlear nucleus; Electrical stimulation; GM1 ganglioside; Neurotrophins (Osofsky, M.R. (159) 23)

Neurofilament deficiency
Axonal hypotrophy; Conduction velocity; Morphology (Sheykholeslami, K. (159) 117)

Neurotrophins
Auditory system development; Cochlear implant; Cochlear nucleus; Electrical stimulation; GM1 ganglioside; Neonatal deafness (Osofsky, M.R. (159) 23)

Nitric oxide
Carboplatin; Oxidative stress; Cochlear antioxidant; Lipid peroxidation (Husain, K. (159) 14)

Nonlinear capacitance
Outer hair cell; Motility; Basilar membrane tuning (Santos-Sacchi, J. (159) 69)

Onset unit
Temporal asymmetry; Brainstem; Amplitude modulation (Neuert, V. (159) 36)

Ossicular chain
Frequency tuning curve; Inferior colliculus; Middle ear destruction; Tonotopic organization (Xu, L. (159) 1)

Outer hair cell
Motility; Nonlinear capacitance; Basilar membrane tuning (Santos-Sacchi, J. (159) 69)

Oxidative stress
Carboplatin; Cochlear antioxidant; Lipid peroxidation; Nitric oxide (Husain, K. (159) 14)

Recruitment
Cochlear nonlinearity; Forward masking; Modulation processing (Derleth, R.P. (159) 132)

Ryanodine
FK binding protein-12; Calcium; Cochlea; Dorsal cochlear nucleus; Immunophilin; Inositol 1,4,5-trisphosphate (Zajic, G. (159) 125)

Temporal asymmetry
Brainstem; Onset unit; Amplitude modulation (Neuert, V. (159) 36)

Temporal processing
Auditory brainstem; Click latency; Delay analysis (FitzGerald, J.V. (159) 85)

Auditory nerve; Cochlear nucleus; Medial nucleus of the trapezoid body (Paolini, A.G. (159) 101)

Tonotopic organization
Frequency tuning curve; Inferior colliculus; Middle ear destruction; Ossicular chain (Xu, L. (159) 1)
